

## Large Screen Controller **TVBOX**

Realize multiple devices  
combined-Screen and  
centralized display

An easy and low-cost electronic signage by 1 TVBOX + 1 TV + multiple HMI/CBOX/IPC

Support 4/6/9 squares screen display

Equipped with 2.4G/5G WiFi, more stable wireless signals

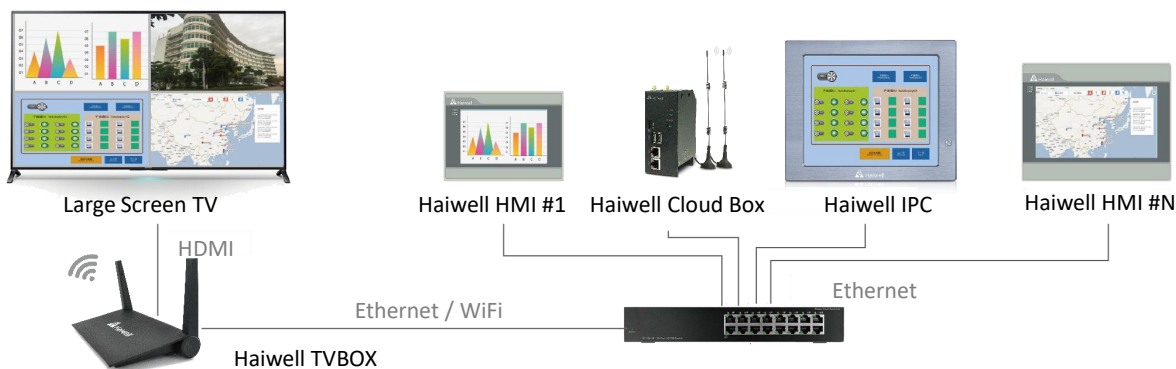

4K full HD output, smoother picture

No software installation, plug and play

## Network Diagram

Haiwell large-screen controller TVBOX can realize the large-screen display of HMI images in the LAN. User can select, switch and view multiple touch screen images on the TV screen, and realize the function of large traditional electronic display board in the most cost effective way.

Through TVBOX, different sizes of touch screen images can be displayed on the TV screen. The SCADA, curve, formula, user rights and other functions on the HMI can be displayed on the large screen. Users can use remote controller or mouse by USB interface of TVBOX to realize the remote operation and monitoring of the HMI.

## Product Features

- 
**Combined-Screen Display**  
 Through TVBOX, the pictures of multiple devices can be combined and shown on a large screen and monitored simultaneously in the form of 4/6/9 squares. Haiwell HMI, CBOX, IPC and other equipments support this function.
- 
**Big electronic display board function**  
 One TVBOX, one TV, and multiple HMIs can easily realize the function of big electronic display board, which is widely used in agricultural greenhouses, aquaculture, libraries, production workshops and other large screen data monitoring and display applications.
- 
**Cloud Devices & Local Devices & Local Videos**  
 The Cloud device can be remotely accessed through Haiwell Cloud, and the local device and Cloud camera can be directly accessed through LAN, realizing multiple devices and camera video centralized display and monitoring.
- 
**Innovation of the project**  
 HMI Image can be displayed according to the size of the TV screen. Support remote controller button, wired keyboard and mouse three modes of operation, easy and convenient operation.
- 
**Dual-band wireless WIFI**  
 The dual-frequency 2.4G /5G WIFI chip is equipped, so the network speed is faster and more stable.
- 
**Firmware upgrading function**  
 Support online and offline version update.

## Application

Production Workshop

Dispatch Center

Monitoring Center

Intelligent Manufacturing

Intelligent Retail

Intelligent Agriculture
